

MICROALGAS

(EXCL. DIATOMEAS)

PARQUE KATALAPI

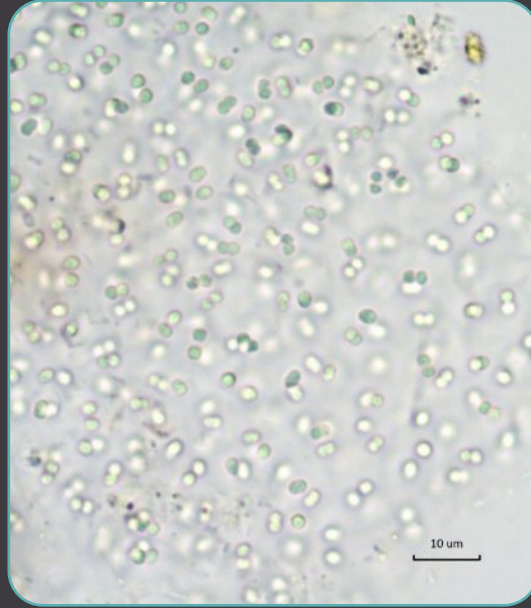

Región de los Lagos, Chile

AUTORES:

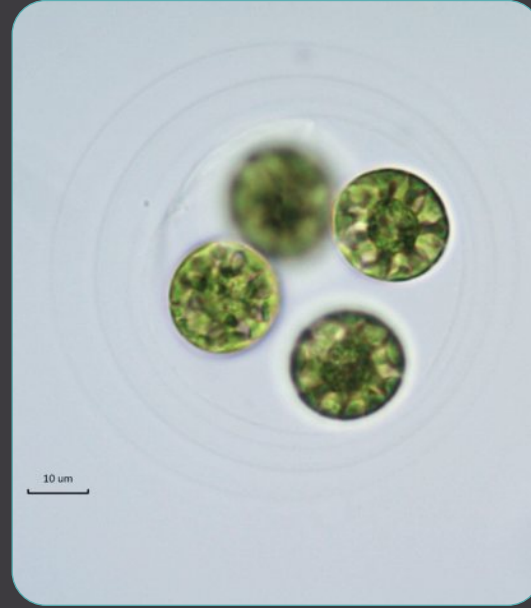

Mariela González, Ingrid Inostroza,
Visitación Conforti* y Enrique Ascencio.
* (Universidad de Buenos Aires, Argentina)

Oscillatoria curviceps
(Cyanobacteria)

Aphanocapsa elachista
(Cyanobacteria)

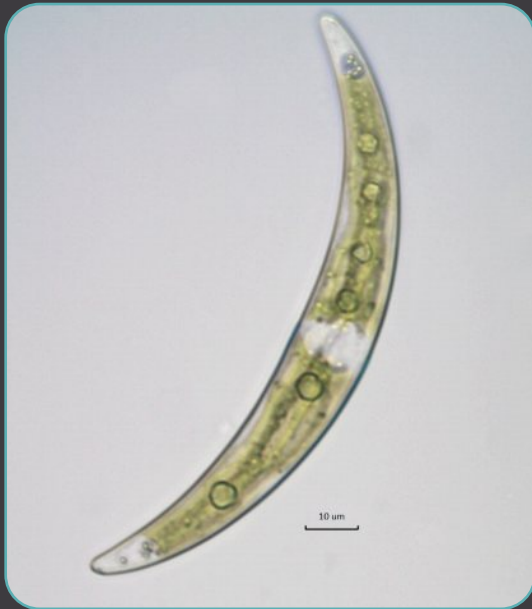

Asterococcus sp.
(Chlorophyta-Chlorophyceae)

Closterium gracile
(Streptophyta-Zygnematophyceae)

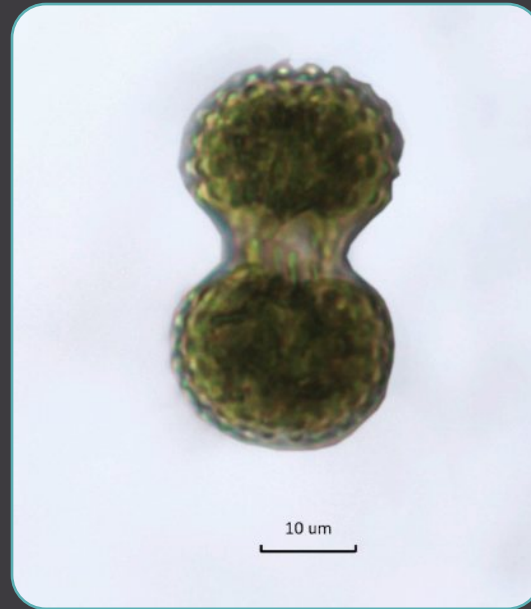

Closterium navicula
(Streptophyta-Zygnematophyceae)

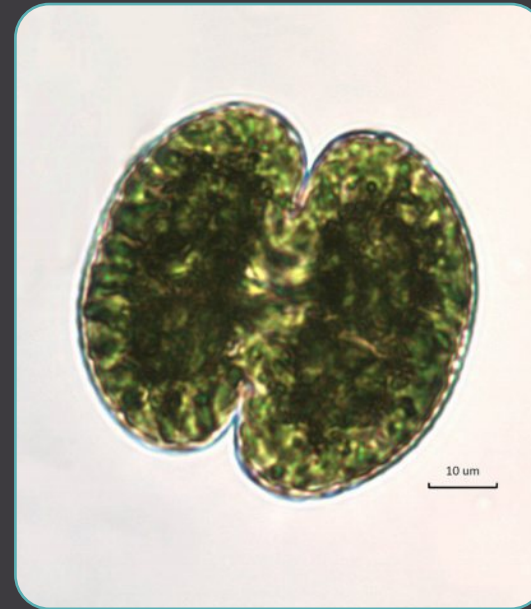

Closterium parvulum
(Streptophyta-Zygnematophyceae)

Cosmarium binum
(Streptophyta-Zygnematophyceae)

Cosmarium portianum
(Streptophyta-Zygnematophyceae)

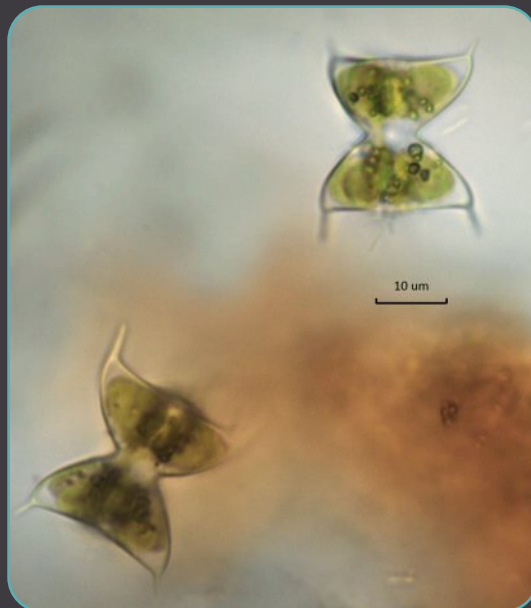

Cosmarium aff. *wenmaniae*
(Streptophyta-Zygnematophyceae)

Staurastrum sebaldi
(Streptophyta-Zygnematophyceae)

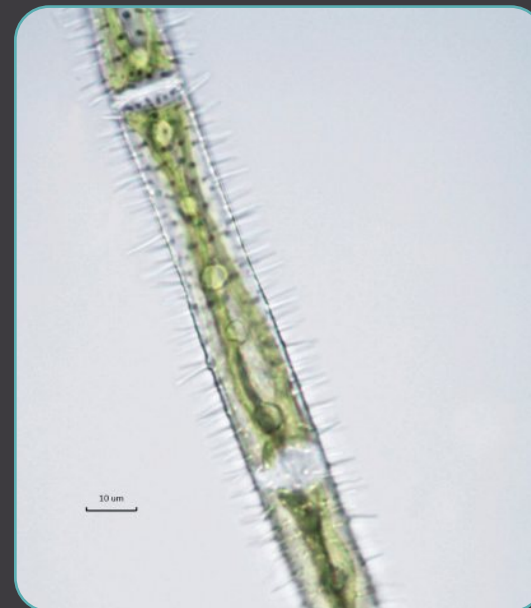

Staurastrum subavicula
(Streptophyta-Zygnematophyceae)

Staurodesmus dejectus
(Streptophyta-Zygnematophyceae)

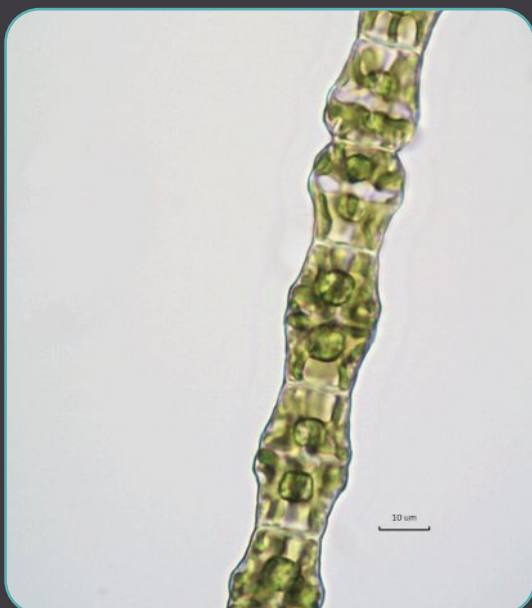

Micrasterias americana
(Streptophyta-Zygnematophyceae)

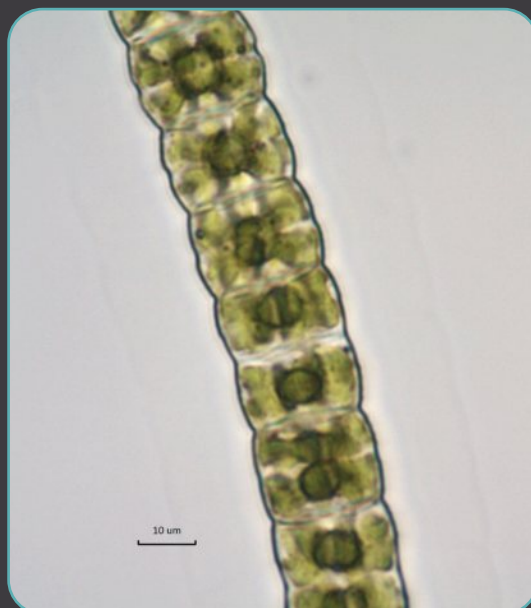

Gonatozygon aculeatus
(Streptophyta-Zygnematophyceae)

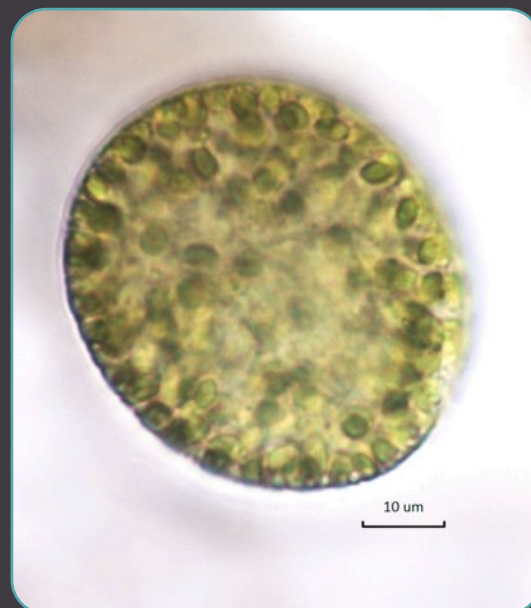

Gonatozygon pilosum
(Streptophyta-Zygnematophyceae)

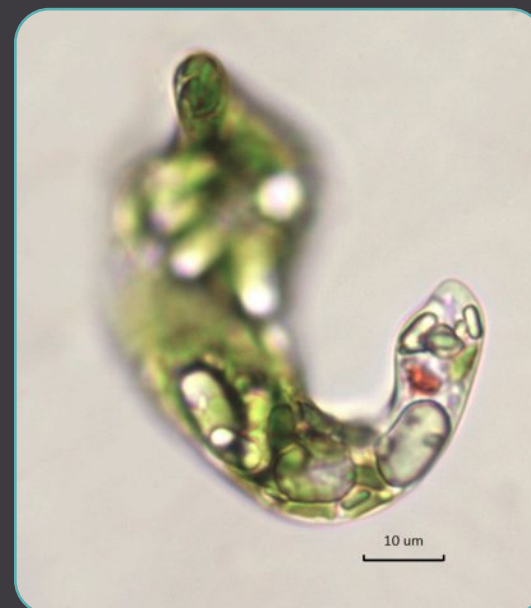

Bambusina brebissonii
(Streptophyta-Zygnematophyceae)

Hyalotheca dissiliens
(Streptophyta-Zygnematophyceae)

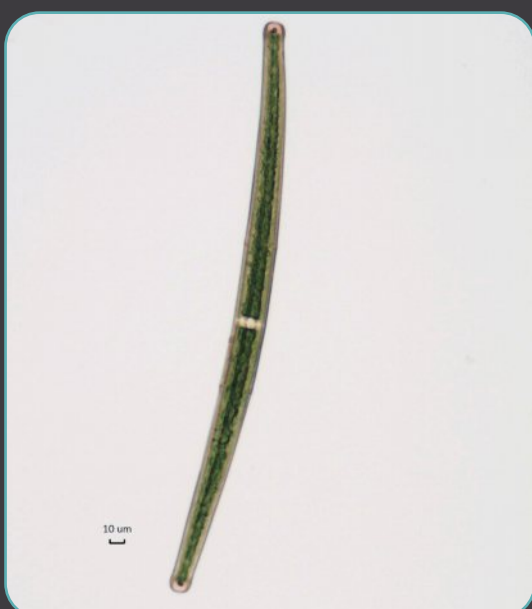

Vacuolaria virescens
(Ochrophyta-Rhaphidophyceae)

Euglena intermedia
(Euglenophyta)

Trachelomonas hispida
(Euglenophyta)

Closterium angustatum
(Streptophyta-Zygnematophyceae)

Parvodinium sp.
(Dinoflagellata)

Staurastrum margaritaceum
(Streptophyta-Zygnematophyceae)
